# Generational change concluded

Dear friends of Maerki Baumann Ladies and gentlemen

The 2017 financial year will have a special place in the history of our private bank. For one thing, our overall results were good. And for another, in the last few months we have taken important action to determine and secure the bank's future in the medium to long term. My sister Dr Carole Schmied-Syz and I have acquired our mother Raymonde Syz-Abegg's shares in Maerki Baumann Holding. We therefore hold approximately 95% of Maerki Baumann Holding AG, either directly or through our joint family holding company CHSZ-Holding AG. The Maerki Baumann & Co. AG private bank is a wholly-owned subsidiary of Maerki Baumann Holding AG.

Besides marking the conclusion of the generational change initiated some considerable time ago, this also creates the preconditions for Maerki Baumann to continue operating as a family-owned private bank in the decades to come. This is significant for our employees, and it also lays firm foundations for continuing and intensifying the long-term collaboration with our clients, based – as it has always been – on trust.

But our commitment to the bank is also intended as a clear signal to new clients that we are devoting our own assets to our quest to find personalised solutions for our clients. The experience of the last few years has supplied impressive evidence that this is an area in which family companies particularly excel – and not only in the financial sector.

We are aware as a family that this sort of success can only be achieved in partnership with management and all our members of staff. So I want to take this opportunity to thank the whole Maerki Baumann team for the impressive devotion and great professionalism they show every day in their work. The bank's manageable size enables us to take necessary decisions promptly and without unnecessary bureaucracy, even if the huge body of governmental and administrative regulation to which we are subjected is unavoidable. But our ambition is to ensure that our clients are less affected in future by this flood of instructions and regulations, and are able to focus in discussions with our client advisors on the ideal individual solutions for the management of their assets. Our operating results in 2017 - as I have already mentioned - can also be regarded as positive. Operating income and net profit both rose substantially once again, further increasing the bank's strength. This is also evident from the core capital ratio, which improved once more year on year and constitutes a solid base for future growth. Finally, the level of client assets entrusted to us has risen by almost CHF 400 million to CHF 7.7 billion. At this juncture we offer our clients our sincere thanks: we are most grateful for their trust and appreciation.

However, the bank's future success depends not only on its own strength but also on the development of the prevailing conditions for the financial sector – both in Switzerland and beyond our borders. On this subject, unfortunately, not all the news is good. The banks are still extremely important to the Swiss economy, but this continues to be denied or talked down. In addition we cannot rely on the unrestricted goodwill of other states, especially in difficult negotiations with them. During the year under review, for example, hardly

any progress was made on the important subject of the private banks' access to the EU area, whereas international competition in our own banking centre remains fierce. I am also very concerned that the automatic exchange of information now in force is granted to some countries with legal systems which - measured against our own standards - could politely be described as archaic. Sensitive client data must not be allowed to fall into the hands of undemocratic regimes whose concern with fair taxation is vanishingly rare ... It is incomprehensible that, while data protection quite rightly, in my view - is taken very seriously within Switzerland, our authorities are inclined to grant applications from other countries for the disclosure of client data on a grand scale. The banks are consequently being forced to have recourse to the courts, where they are vindicated in almost all cases. There must be a rethink by the authorities. Whatever needs to be done to expose tax evasion should indeed be done. But any more ambitious encroachment on client privacy must be systematically prevented - and if necessary penalised.

If, by pooling our efforts, we succeed in reversing this deterioration in the prevailing conditions for the Swiss financial centre, then I face the future of our industry with confidence. This is particularly true for our own private bank as it goes forward into future financial years. On behalf of our family and the entire Bord of Directors I would like to express our gratitude to everyone who has contributed to the success of our bank.

On behalf of the Board of Directors

Hans G. Syz-Witmer
Chairman of the Board of Directors

«We have created the preconditions for Maerki Baumann to continue operating as a family-owned private bank in the decades to come.»

Board of Directors from left to right: Hans G. Syz-Witmer Dr Carole Schmied-Syz Prof. Dr Bruno Gehrig Urs Lauffer Michele Moor

# Members of the Board of Directors: short CVs

#### Hans G. Syz-Witmer

Chairman of the Board of Directors

Hans G. Syz-Witmer (b.1957) has chaired the bank since 1997. Furthermore, he has also been Vice-Chairman of the Board of Directors of Maerki Baumann Holding AG since 2016 (he was Chairman from 2007 to 2016), and has been Vice-Chairman of the Board of Directors of InCore Bank AG, in which Maerki Baumann Holding AG has a major shareholding, since 2009 (having been its Chairman from 2007 to 2009); since 2003, he has been a member of the Board of Directors of CHSZ-Holding AG.

As an entrepreneur, Hans G. Syz-Witmer is a member of several other Boards of Directors and Boards of Trustees, such as Aquila & Co. AG (member of the Board of Directors), Turnus Film AG (Chairman of the Board of Directors), the Schulthess Klinik (Vice-Chairman of the Board of Trustees), the Tonhalle-Gesellschaft Zürich (Vice-Chairman and Treasurer), the Kongresshaus-Stiftung (Vice-Chairman of the Board of Trustees), the Baugarten Zürich Genossenschaft und Stiftung (Chairman of the Board of Trustees and Directors), the Friedrich Steinfels AG (member of the Board of Directors) and the Stiftung Prof. Dr. Max Cloëtta (member of the Board of Trustees).

#### **Dr Carole Schmied-Syz**

Vice-Chairwoman of the Board of Directors

Carole Schmied-Syz (b.1963), Dr iur, has been a member of the bank's Board of Directors since 1998 and its

Vice-Chairwoman since 2005. Since 2016 she has been Chairwoman of Maerki Baumann Holding AG (she was Vice-Chairwoman from 2007 to 2016) and has been a member of the Board of Directors of CHSZ-Holding AG since 2003

Carole Schmied-Syz is active as an academic lawyer in the fields of contract and liability law. She used to be politically active as well: until 2005, for example, she was a member of the Zurich Constitutional Council. She holds a number of other mandates: she is a trustee of the Right To Play Foundation, and in the cultural field she is a member of the board of the Patrons' Association of the Tonhalle-Gesellschaft Zürich. Furthermore, she chairs the bank's art committee.

#### **Prof. Bruno Gehrig**

Member of the Board of Directors

Bruno Gehrig (b. 1946), Prof. Dr rer. pol. Dr h.c., has been a member of the bank's Board of Directors since 2014. He was a professor at the University of St. Gallen and Director of the Swiss Institute of Banking and Finance (s/bf-HSG) prior to be being appointed as a member of the Governing Board of the Swiss National Bank from 1996 to 2000, and its Vice Chairman from 2001 to 2003. He was subsequently a member of a number of Boards of Directors: Swiss Life Holding AG, Chairman; Swiss International Air Lines AG, Chairman; Roche Holding AG, Vice-Chairman; and UBS AG, member. Bruno Gehrig is currently a member of the Board of Directors of Wirz Partner Holding AG, and of the Board of Trustees of Kartause Ittingen.

#### **Urs Lauffer**

Member of the Board of Directors

Urs Lauffer (b.1958), Swiss Certified PR adviser/management consultant, has been a member of the bank's Board of Directors since 2010, of the Board of Directors of Maerki Baumann Holding AG since 2009, and of the Board of Directors of CHSZ-Holding AG since 2007.

Urs Lauffer is a co-owner of Lauffer & Frischknecht, a company active in the field of management consultancy for communication. He is also a member of various Boards of Directors and Trustees: he is Chairman of the Board of Directors of Rahn AG, Vice-Chairman of the Board of Directors of Emil Frey Holding AG, Chairman of the Boards of Trustees of the Fritz Gerber Foundation for gifted young people and the Paradies Foundation for social Innovation, and Vice-Chairman of the Swiss Life Perspektiven Foundation.

#### Michele Moor

Member of the Board of Directors

Michele Moor (b.1965), BSc in Economics, HSG/dipl. El.-Ing. ETH, has been a member of the bank's Board of Directors since 2014.

From 2000 to 2013 Michele Moor was Managing Partner of the Wegelin & Co. private bank, and since 2014 he has been a Director of Ing. Michele Moor SA, his own group of companies based in Lugano, which is primarily active in the finance and services area. From 2005 until 2008, inter alia, Michele Moor was Chairman of the Swiss Officers' Association.

### Trust has a future

It will soon be ten years since the outbreak of the major financial crisis that brought the banking system to the brink of collapse, ushering in perhaps the most fundamental structural change ever experienced by the Swiss banking industry. Under huge political pressure from abroad, banking confidentiality in cross-border business came to an end, yielding to the automatic exchange of information. This radical process of change was accompanied by a dramatic rise in regulatory intensity, thus substantially increasing both the cost and the complexity of providing financial services. Last but not least, technological innovations, the market entry of new providers from outside the traditional banking industry and greater market transparency have resulted in fiercer competition and tighter margins in private banking. During the past decade, of the more than 170 Swiss banks operating in the private banking segment, over 60

have disappeared or been subsumed into larger banks. These changes have been a major business challenge for Maerki Baumann too. However, our pronounced flexibility and our independence as a family-owned company made it much easier for us to adjust our business model in line with the new parameters. Taking a long-term view and with our eyes firmly on client needs, we have clearly focused our market strategy on our core markets, Germany and Switzerland. Moreover, we have invested in staff training, the launch of new services and the establishment of efficient processes and powerful IT systems. We are pleased that the quality of our services in 2017 was appreciated not just by our clients, but also by independent assessors. We received two highly-regarded industry awards: the Swiss business journal "Bilanz" named Maerki Baumann the best Swiss private bank,

and the editors of Germany's "Elite Report" awarded us the attribute "summa cum laude" for the tenth time in succession. And finally, our investment solutions were again awarded the supreme seal of approval as part of our certification by the Munich-based Institut für Vermögensaufbau.

#### Business performance of Maerki Baumann

Maerki Baumann's gratifying performance in 2017 underscores the fact that long-term investments made in previous years are bearing fruit. The exacting regulatory environment, negative interest rates on balances with the Swiss National Bank and the unrelenting pressure on margins certainly posed challenges, but our efficient, future-oriented business model enabled us to meet them successfully. Having doubled our net profit in 2016, we did it again in 2017: this figure came in at CHF 4.17 million, as against CHF 2.08 million in the previous year. Gross profit also rose by a significant CHF 1.70 million to CHF 5.40 million.

Prudent balance sheet management enabled us to generate net interest income of CHF 4.08 million, roughly on a par with the previous year's figure of CHF 4.13 million. Fee and commission income, which is very important to us, amounted to CHF 27.31 million – down just CHF 0.15 million year on year. This reflects increased efficiency, as our average workforce was substantially smaller in 2017. Commission income was actually slightly up on the 2016 figure, but so was commission expense. At CHF 2.41 million, net trading income was some CHF 0.30 million higher than in the previous year – a development primarily attributable to solid foreign-exchange sales. Other ordinary income

amounted to CHF 3.13 million, up by CHF 1.49 million on the previous year thanks to higher income from investments.

The headcount (full-time-equivalent) at the end of the year under review was unchanged at 73 persons. The previous year's capacity reduction had the effect of reducing personnel expense by a further CHF 0.79 million to CHF 20.68 million. At CHF 10.85 million, general and administrative expenses were CHF 0.66 million higher than in the previous year as a result of the implementation of additional regulatory requirements, investments in Maerki Baumann's market positioning and the continued technological development of our modular investment platform. Operating expenses were nonetheless a marginal CHF 0.12 million below the previous year's figure, at CHF 31.52 million.

Client assets under management rose by CHF 377 million to CHF 7.7 billion, an increase of 5 percent. This growth is attributable to the positive performance of CHF 643 million, reduced by outflows of CHF 265 million. Our core business with Swiss clients posted inflows of CHF 75 million, but regulatory restrictions on client acquisition resulted in outflows in foreign business. At the end of 2017, in order to be able to exploit the German market more effectively in future, Maerki Baumann submitted an application for facilitated exemption to the German financial supervisory authority BaFin. In line with Maerki Baumann's market strategy, the assets of Swiss clients now account for almost 80 percent of our customer base, and those of German clients around 10 percent.

Maerki Baumann has well-established systems for identifying, limiting and monitoring significant risks.

The Board of Directors and Executive Board regularly review the relevant market, credit and liquidity risks as well as operating risks (see "Description of business activities"). Our conservative risk and business policy is reflected in excellent liquidity and capital adequacy ratios. The liquidity coverage ratio averaged 261.6 percent in 2017 (previous year: 233.3 percent), which is very significantly above the requirement of 90 percent. In addition, Maerki Baumann had a BIS core capital ratio (Tier 1 ratio) of 18.8 percent at the end of 2017 (previous year: 17.4 percent), as against the regulatory minimum of 10.5 percent. With this very solid capital base, our private bank has increased its stability still further.

#### Outlook

As your partner in complex investment matters, Maerki Baumann strives to adapt its services to changed client expectations on an ongoing basis. One way in which we are resisting the trend among private banks towards standardisation is our decision to forego in-house products, focusing instead on personalised investment solutions. To be able to deliver an individual service to clients, the bank must be as flexible and innovative in future as it is now.

In the new modular investment platform, which combines professional asset management with personal advice, we have created the basis for doing just that. The potential of our modular investment solution in differentiating us from the competition is clear – not only from the positive reaction of our clients, but also from the recognition we are receiving from the media and academe.

We attach great importance to exploiting the potential offered by digitalisation. All our client advisors now have a modern advisory app with which personalised investment strategies can be devised for individual clients. And we are investing in the expansion of electronic service channels as a supplement to personal client contact, which will always take pride of place at Maerki Baumann. As an independent, family-owned company, we are ideally equipped to face the future thanks to our personal, candid and transparent service philosophy, our innovative investment solutions and our hard-working employees. More than ever we are convinced of our ability to provide a sustainable service to existing clients with our attractive services, meeting the needs of the next generation of clients in a wholly targeted way.

Where the continued development of Maerki Baumann is concerned, we are conscious of one thing: stability, innovative strength and flexibility may be the central success factors for a private bank in a highly dynamic market environment, but the most important thing for us remains the mutual trust between our clients and ourselves. In this spirit we have formulated our new mission statement under the title of "Trust has a future".

On behalf of the Executive Board

Dr Stephan A. Zwahlen Chief Executive Officer «The most important thing for us remains the mutual trust between our clients and ourselves – in this spirit we have formulated our new mission statement under the title of 〈Trust has a future〉.»

Executive Board from left to right: Dr Stephan A. Zwahlen Lukas S. Risi Robert Simoni Dr Alexander Ising

# Members of the Executive Board: short CVs

#### Dr Stephan A. Zwahlen

Chief Executive Officer

Stephan A. Zwahlen (b.1978), Dr. oec. HSG, has been Chief Executive Officer since February 2016. He joined the bank's Executive Board as Head of Investment Solutions & Services in April 2009. From September 2010 he had the additional role of deputy CEO before being appointed CEO.

Stephan Zwahlen worked at UBS Global Wealth Management in the area of international mandate business until 2009. From 2005 to 2007 he worked at Maerki Baumann & Co. AG for the first time, where he was responsible for the strategic repositioning of the bank and the founding of a transaction bank. He then managed various strategic projects within the Maerki Baumann Group as Head of Corporate Development. Stephan Zwahlen started his career at the Swiss Institute of Banking and Finance (s/bf-HSG), which is attached to the University of St. Gallen.

Stephan Zwahlen studied – and obtained a doctorate in – Business Administration with a specialisation in banking and finance at the University of St. Gallen (HSG) and the Richard Ivey School of Business in London, Ontario. Stephan Zwahlen has for many years been a member of the Board of the Zurich Banking Association, actively working in the interests of the Swiss financial centre. As Chairman of the Supporters' Association and member of the Managing Committee of the Swiss Institute of Banking and Finance at the University of St. Gallen, he also remains closely in touch with academic research. He regularly lectures in banking at the University of St. Gallen and the Swiss Finance Institute. Stephan

Zwahlen completed his officer training with the Swiss Armed Forces, rising to the rank of a company commander in the Swiss Air Force.

Stephan Zwahlen is married and has a daughter. As well as spending time with his family he enjoys travelling, golf, skiing and modern art.

#### Lukas S. Risi

Deputy CEO and Head of Private Banking

Lukas S. Risi (b.1974), lic. iur., LL.M., has been Head of Private Banking and Deputy CEO since February 2016. Lukas Risi joined Maerki Baumann & Co. AG as General Counsel and Head of Legal & Compliance in 2009. Since November 2012 he has also headed the Risk & Internal Control Department. He was appointed to the bank's Executive Board as General Counsel and Head of Corporate Services in January 2014.

From 2003 to 2008 Lukas Risi worked as Legal Counsel with Bank Julius Bär, having previously been a lawyer and notary for a law firm in Zug.

Lukas Risi studied law at the University of Fribourg, subsequently qualifying as a lawyer and notary in Zug. He was awarded the degree of Master of Law (LL.M.) in European law by the University of Stockholm.

From 2011 to 2015 Lukas Risi was a member of the Swiss Bankers Association's Commission for the Protection of Swiss Assets.

Lukas Risi is married and has a son and a daughter. He enjoys spending his free time with his family. His special interests include travel, outdoor sports and concertgoing.

#### **Robert Simoni**

Member of the Executive Board, Head of Investment Solutions

Robert Simoni (b.1971), graduate in business administration HWV, has been Head of Investment Solutions and a member of the Executive Board since February 2016. As Head of Investment Management he is also responsible for asset management and the administration of our investment solutions.

Robert Simoni joined Maerki Baumann & Co. AG as Senior Portfolio Manager in February 2010, having previously worked in investment management at Zürcher Kantonalbank, Vontobel and LGT. He began his professional career as a client advisor and subsequently as a portfolio manager at Credit Suisse.

He studied business administration at the School of Economics and Business Administration (HWV) in Zurich. He also holds a postgraduate diploma as a financial analyst and asset manager from the Training Center for Investment Professionals.

Robert Simoni is married and has one son. He enjoys spending his leisure time with his family or engaging in various sports.

#### Dr Alexander Ising

Member of the Executive Board, Head of Corporate Services

Alexander Ising (b.1978), Dr. oec. HSG, has been Head of Corporate Services and a member of the Executive Board since October 2016. He is also Head of Risk & Internal Control and Head of Business Development. He is responsible for banking operations, for the continuing development of our investment solutions, and for meeting regulatory and fiscal requirements.

Alexander Ising joined Maerki Baumann & Co. AG in 2009, initially holding various positions in investment management. He had previously worked at the Wegelin & Co. private bank as a fund analyst.

Alexander Ising studied economics at the Ludwig Maximilian University of Munich. After conducting research work at Columbia University in New York and working for the Swiss Institute for Banking and Finance, he obtained a doctorate at the University of St. Gallen, focusing mainly on finance.

Alexander Ising is married, and has a daughter and a son. He spends his free time with his family, and he enjoys travelling and skiing.

# Notes to the financial statements

# Description of business activities

#### **Business activities**

Maerki Baumann & Co. AG was established in 1932 and is mainly active in the areas of asset management and investment advisory services for private and institutional clients as well as the provision of services to external asset managers. In this connection, it conducts lending business on a modest scale. Its main business area and principal source of income is commission and service fee business, which accounts for approximately 74% of ordinary income. Interest margin business contributes 11% to ordinary income and trading business 7%. Other ordinary income accounts for 8%.

#### **Business areas**

The main business activities can be described as follows:

- Investment advisory services for private and institutional clients
- Asset management for private and institutional clients
- Provision of services to external asset managers
- Indirect real estate investments for institutional clients
- Lending to private clients (collateral loans and mortgage solutions)

Geographically, the bank's client relationships are primarily concentrated in Switzerland and other parts of Europe (mainly Germany).

#### Commission and service fee business

Asset management and investment advisory services are the major components in the bank's commission and service fee business. These services are used by

both our private and institutional clients. Services provided to external asset managers also generate significant income for the bank.

#### **Trading business**

The bank does not trade in securities for its own account. Foreign currencies and precious metals are traded without significant open risk positions. Trading in financial derivatives is restricted to products traded on a regular basis on behalf of our clients.

#### Lending business

The bank adheres to a restrictive lending policy and grants predominantly collateralised loans against liquid securities in diversified portfolios. Conservative loan-to-value ratios ensure that default risk is kept to a minimum. The loans reported as mortgages are secured by Swiss residential real estate.

#### Risk assessment

The Board of Directors and Executive Board regularly examine the major risks to which the bank is exposed, including operational, market, credit and liquidity risks. Risk-reducing measures, internal controls and reporting are also included in the risk assessment. Special attention is paid to ensuring continuous monitoring and evaluation of the impacts of these key risks on the bank's financial statements. Limits are set for the individual risk categories and are constantly monitored.

#### Risk management

The risks arising from banking activities are systematically identified, managed and limited in accordance with uniform guidelines. The adequacy of the bank's risk management policies is reviewed periodically and policies are adapted as necessary.

#### Interest rate fluctuation and credit risks

Most loans are granted at short-term variable interest rates. Major interest rate fluctuation risks are avoided by means of maturity and currency matching in the funding process. Lending is subject to uniform guidelines and clearly defined levels of authorisation. Separate loan-to-value ratios have been set down for each category of collateral in order to minimise credit risks. These take into account the country, market and credit rating risk of the issuers. For securities and precious metals, the bank applies current market values. In calculating the market value of real estate, the bank uses current estimates or the acquisition costs less any impairment of value due to market conditions or age.

Exposed loans, i.e. claims on clients where it is improbable that the debtor will be able to meet future obligations, are valued individually and the expected loss is recognised through an individual valuation adjustment. Impairment on exposed loans is measured as the difference between the carrying amount of the claim and the expected recoverable amount. The expected recoverable amount of the collateral is its liquidation value (estimated realisable disposal value less holding and liquidation costs). The entire client or economic entity exposure is always examined for current counterparty risks.

#### Market risks

Market risks for securities are restricted by means of a system of limits defined by the category of security and individual transactions. Valuation is based on current market value. The limits the bank has set on market risks are very restrictive. Maerki Baumann & Co. AG holds no significant positions in derivative instruments for its own account and does not trade in illiquid markets for its own account.

#### Liquidity risks

Liquidity risks are subject to continuous monitoring. The bank has a high level of liquid funds which significantly exceed the minimum legal requirements stipulated by the Swiss Financial Market Supervisory Authority (FINMA).

#### Operational risks

The bank has internal regulations and directives as well as a well-developed system of controls allowing it to limit and monitor operational risks. Legal risks are reduced by means of standard framework contracts and uniformly maintained documentation.

## Methods used to identify default risks and determine valuation adjustments

Mortgages: The fair value of residential properties is determined regularly by external real estate valuations. Moreover, the credit standing of the borrower is reviewed at regular intervals. Mortgages are only granted to established private banking clients and employees. In addition, outstanding interest and repayment instalments are analysed. On this basis, the bank identifies higher-risk mortgages. These are then examined in more detail by credit specialists. Where appropriate, further collateral is required or corresponding

valuation adjustments are made to reflect the shortfall in collateral.

Securities-backed loans: Exposure to securities-backed loans and the value of the collateral are monitored daily. Where the loan-to-value ratio of the securities provided as collateral is below the exposure, the loan is reduced or a call made for additional collateral. In the event of an increase in the shortfall, or of exceptional market conditions, the collateral is liquidated and the loan closed out

Unsecured loans: As a matter of principle, no unsecured loans are granted.

Procedure used to determine valuation adjustments and provisions: The need for new valuation adjustments and provisions is identified using the procedure described above. Furthermore, known risk positions where a risk has already been identified in the past are reassessed on each balance sheet date and the valuation adjustments are altered where necessary. The Risk Management department assesses and applies for all valuation adjustments relating to risk positions. Approval has to be obtained from the Executive Board and Board of Directors.

#### Valuation of collateral

Mortgages: In the mortgage business, an up-to-date collateral valuation is available for every loan granted. In the valuation of residential property, the bank has access to independent external estimates.

Securities-backed loans: For lombard loans and other securities-backed loans, diversified portfolios with transferable financial instruments for which there is a liquid and active market are normally accepted. The

bank applies conservative discounts to the market values to cover the market risk associated with liquid and marketable securities and determines the loan-to-value ratio.

#### Outsourcing

Maerki Baumann & Co. AG has outsourced the trading of securities, currencies and precious metals and the processing of this trading business, payment transactions and operation of central IT systems to InCore Bank AG. Processing of mortgage transactions has been outsourced to Avobis Credit Services AG. These outsourcing processes are regulated in detail by contracts complying with the regulations of FINMA. All employees of service providers are subject to banking secrecy, which ensures that client data are protected.

#### **Personnel**

At year-end the bank had 73 full-time equivalent employees (previous year: 73).

#### Material events after the balance sheet date

No material events have occurred since the balance sheet date which significantly influence the bank's assets, financial position or earnings.

# Accounting and valuation principles

#### **General principles**

The bookkeeping, accounting and valuation principles are based on the provisions of the Swiss Code of Obligations, banking law and statutory regulations, and on the guidelines of the Swiss Financial Market Supervisory Authority (FINMA). These financial statements are deemed to be reliable assessment statutory single-entity financial statements. Transactions are recognised in accordance with the trade date principle. Assets and liabilities as well as off-balance-sheet transactions are valued individually. The main valuation principles are described below. There may be rounding differences in the values shown in the tables in the Notes as compared to the values in the balance sheet and income statement.

This annual report is also available in german. The german version is authoritative.

#### **Basis of consolidation**

Maerki Baumann & Co. AG is fully consolidated in the Maerki Baumann Group. Maerki Baumann & Co. AG does not possess any holdings that need to be consolidated.

#### Changes versus the previous year

The accounting and valuation principles are unchanged versus the prior year.

#### Foreign currencies

Assets and liabilities in foreign currencies and banknotes are valued at the applicable mid-rates as of the balance sheet date. The two key currencies in our financial statements (USD and EUR) were converted as follows: the US dollar at CHF 0,9750 (prior year 1,0160)

and the euro at CHF 1,1720 (prior year 1,0730). Transactions in foreign currencies are booked at the applicable exchange rate on the trade date. Differences in exchange rates are booked to the income statement.

## Liquid assets, due from banks and clients, mortgage loans, liabilities

These items are shown in the balance sheet at nominal value. Individual valuation adjustments are made for discernible risks in accordance with the principle of prudence. These are offset against loans. Should a debtor be more than 90 days in arrears on interest payments, the interest due is allocated directly to the valuation adjustments. In this case, a credit to income is only made after the interest payment has actually been made. If a receivable is deemed to be non-recoverable, it is written off. Loans on which valuation adjustments have been made are classified as exposed loans until they have been repaid in full.

## Trading portfolios and obligations relating to trading portfolios

Trading portfolios are valued at market prices at the balance sheet date. Interest and dividend income is reported under "Interest and dividend income from trading portfolios".

#### **Financial investments**

Investments that are carried out with the intention of resale are valued in accordance with the principle of lower of cost or market. Fixed-interest investments which are expected to be held to maturity are valued using the accrual method. Interest and dividend income

is reported under "Interest and dividend income from financial investments".

#### **Participations**

Capital or voting shares in other companies are recognised as participations at the cost of acquisition less any required valuation adjustments.

#### Tangible fixed assets

Tangible fixed assets are recognised at acquisition price and are depreciated over a conservatively estimated useful life. They are tested annually for impairment. If the impairment test results in a different useful life or a decrease in value, an extraordinary write-off is performed and the residual book value is depreciated according to schedule over the remaining useful life. The estimated useful life for the different categories of tangible fixed assets is as follows:

- Bank buildings (excluding land): maximum 50 years
- Software, IT and communications equipment: maximum 3 years
- Other tangible fixed assets: maximum 10 years

#### Pension liabilities

The bank operates a full-insurance defined contribution scheme for employees. In addition, there is a legally independent employer's fund for supporting employees and retirees in case of financial difficulties. Employer contributions are reported as personnel expenses.

#### **Provisions**

Provisions are recognised for all discernible risks in accordance with the principle of prudence and are

reported under liabilities. Provisions may include hidden reserves, which are reported under other provisions.

#### **Contingent liabilities**

Contingent liabilities are reported at the maximum amount. Provisions are established for discernible risks in accordance with the principle of prudence.

#### Reserves for general banking risks

In accordance with Article 18 of the Swiss Federal Capital Adequacy Ordinance, this provision is accounted for as equity and was already subject to taxation.

#### Taxes

Taxes are charged to the year in which they are incurred on the basis of commercial considerations. No deferred taxes are recognised.

#### Precious metals accounts

The valuation of precious metals accounts is based on listed prices at the balance sheet date.

#### **Derivative financial instruments**

Open derivative financial instruments at the balance sheet date are carried on the balance sheet at their positive and negative replacement values. The contract volumes are reported in the Notes. The replacement values are based on open forward transactions at forward residual maturity prices. Options with a representative market are valued at current market rates. In the case of OTC options, the counterparty is not disclosed to clients. Netting agreements exist.

| Total equity capital                                 | 51534      | 50066      |
| non-distributable reserves                           | 26 285     | 27 629     |

Distributions out of statutory profit reserves and statutory capital reserves are only permitted if, taken together, they exceed 50% of the nominal share capital. Under company law, CHF 1.5 million is therefore not eligible for distribution. Moreover, the regulatory minimum capital requirements have to be taken into account. These further restrict the scope for profit distributions.

| Total managed assets (including double counting) at end            | 7673       | 7 2 9 6    | 377    |

Total client assets include assets associated with the processing of investment-related transactions. Own shares are also included in this item, as they are not treated as client assets held exclusively for safe deposit purposes. Client assets held exclusively for safe deposit purposes are not included in total client assets. Assets managed by the bank under a discretionary mandate may be held in custody accounts at other banks. Assets with a discretionary mandate are those client assets where investment decisions are made by the bank. Other assets under management are those assets where investment decisions are made by the client. In the year under review, no reclassification was undertaken from or into this category.

Net asset flow is comprised of the net result of the inflow and outflow of client monies and assets held in custody accounts at the current value at the time of the relevant transaction. Interest, charges and fees credited or charged to customers by the bank are not included in net asset flow.

## Information on the income statement

#### Net trading income

| in CHF 1000                   | 2017  | 2016  | Change |
|-------------------------------|-------|-------|--------|
|                               |       |       | 0      |
| Interest rate instruments     | -6    | -29   | 23     |
| Equity securities             |       |       |        |
| Foreign currencies            | 2 402 | 2 130 | 272    |
| Commodities / precious metals | 11    | 10    | 1      |
| Total net trading income      | 2407  | 2111  | 296    |

The bank does not engage in trading for its own account. The net trading income was generated mainly with private clients.

#### Current and deferred taxes / disclosure of the tax rate

| in CHF 1000    | 2017 | 2016 | Change |
|----------------|------|------|--------|
|                |      |      |        |
| Current taxes  | 140  | 95   | 45     |
| Deferred taxes |      |      |        |
| Total taxes    | 140  | 95   | 45     |
| Tax rate       | n/a  | n/a  |        |

Owing to the release of taxed reserves for general Banking risks in the previous years, there is a gross tax-deductible loss carryforward of TCHF 4063.

Because of the tax-deductible loss carryforward, no income tax is due on the reported profit. Factoring this out, the tax rate would be 21.5%.

## Proposals to the General Meeting

The Board of Directors proposes the following motions to the General Meeting to be held on 18 April 2018:

- 1. To approve the Annual Report presented and the financial statements for 2017.
- 2. To grant discharge to the members of the Board of Directors and the Executive Board in respect of their conduct of business in the 2017 financial year.
- 3. To appropriate the annual profit plus the profit brought forward from the previous year:

| in CHF 1 000                                       | 2017  |
|----------------------------------------------------|-------|
|                                                    |       |
| Profit carried forward                             | 3 696 |
| Plus annual profit                                 | 4 168 |
| At the disposal of the General Meeting             | 7 864 |
|                                                    |       |
| Dividend                                           | -2700 |
| Allocation to statutory retained earnings reserve  |       |
| Allocation to voluntary retained earnings reserves | -1524 |
| Carried forward to new account                     |       |

- 4. Re-election of the standing members of the Board of Directors for a further one-year term, namely:
  - Hans G. Syz-Witmer
  - Dr Carole Schmied-Syz
  - Professor Bruno Gehrig
  - Urs Lauffer
  - Michele Moor
- 5. Reappointment of PricewaterhouseCoopers AG, Zurich, as statutory auditor for one year.

### Report of the statutory auditor

to the General Meeting of Maerki Baumann & Co. AG Zürich

#### Report of the statutory auditor on the financial statements

As statutory auditor, we have audited the financial statements of Maerki Baumann & Co. AG, which comprise the balance sheet, income statement, statement of changes in equity and notes (pages 23 to 58), for the year ended 31 December 2017.

#### Board of Directors' responsibility

The Board of Directors is responsible for the preparation of the financial statements in accordance with the requirements of Swiss law and the company's articles of incorporation. This responsibility includes designing, implementing and maintaining an internal control system relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Board of Directors is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

#### Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control system relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements for the year ended 31 December 2017 comply with Swiss law and the company's articles of incorporation.

PricewaterhouseCoopers AG, Birchstrasse 160, Postfach, CH-8050 Zürich, Switzerland Telefon: +41 58 792 44 00, Telefax: +41 58 792 44 10, www.pwc.ch

PricewaterhouseCoopers AG is a member of the global PricewaterhouseCoopers network of firms, each of which is a separate and independent legal entity

#### Report on other legal requirements

We confirm that we meet the legal requirements on licensing according to the Auditor Oversight Act (AOA) and independence (art. 728 CO and art. 11 AOA) and that there are no circumstances incompatible with our independence.

In accordance with art. 728a para. 1 item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists which has been designed for the preparation of financial statements according to the instructions of the Board of Directors.

We further confirm that the proposed appropriation of available earnings complies with Swiss law and the company's articles of incorporation. We recommend that the financial statements submitted to you be approved.
